

6-Month Earnings Outlook in the Commercial Aviation Industry Supply Chain

Earnings Outlook

This quarter's survey addressed M&A buyer sentiment in the middle market of the supply chain for commercial aviation. During August of 2022 we asked more than 140 buyers (both financial and strategic) about their views regarding earnings expectations over the next six months in the middle market of the supply chain for commercial aviation.

Information regarding our surveys

Our surveys are conducted in-house by the team at Alderman & Company, utilizing our proprietary database of more than 20,000 professionals and executives world-wide who are associated with mergers and acquisitions in the middle market of the aerospace and defense industry.
